

nexVortex has established itself in the marketplace based on four overarching tenets: Uncommon Service, Uncommon Know-How, Uncommon Commitment, and Uncommon Innovation.

These principles drive nexVortex's mission to provide its customers and business partners with the IP knowledge, services, and capabilities they need to succeed in their respective markets.

So whether you own a PBX and need SIP Trunking to connect you to the Cloud or are retiring your PBX and choose to receive voice services from the Cloud with Hosted Voice, we have your solution.

What We Offer

SIP Trunking

Hosted Voice

Managed SIP (mSIP)

Hosted Contact Center
(cloudQ)

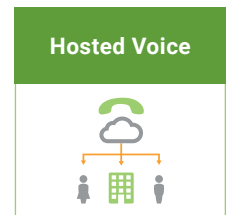

Performance Monitoring

Conferencing

Where We Excel

nexVortex has been delivering Cloud Communication Services for over eleven years and have maintained a 99% customer retention rate. Our complete portfolio of business communication services includes SIP Trunking, Managed SIP Trunking (mSIP), Hosted Voice, Toll Free Services, Fax, and other key business services.

Business partners and end-users depend on our QoS enabled, highly resilient network (in geographically distributed data centers), and on our highly skilled operations staff to deliver cost effective, high quality service.
